

AI INTERNSHIP BATCH 3
JMM TECHNOLOGIES

DATA VISUALIZATION

- Please explore all the charts used to convey visual information and write a brief summary (not more than three lines) of how they are used.
- What kind of information do they convey?
- And how are they used in decision-making?
- Best practices about charts (You can research different Medium blogs and other blogs).
- Explore all the different libraries and tools of data visualization and write briefly about them.
- Explore the work of Edward Tufte(Data Visualization GURU) and watch some of his videos regarding that.
